Education

Dhirubhai Ambani Institute of Information & Communication Technology, Gandhinagar

2024 - 2026

M.Tech in Software Systems - CGPA: 8.39

Gujarat Technological University, Rajkot

2020 - 2024

B.E in Computer Engineering - CGPA: 8.35

Experience

HM Square Solutions LLP (Speed Ecom Solution)

Jan 2026 – May 2026

Software Development Intern (PPO Offered)

Full time - Surat, India

- Built the backend security layer from scratch - **JWT/bcrypt auth, CORS, and rate limiting on auth routes** then rolled out a **5-tier RBAC system** across a 5 server production setup handling **800+ users** (dedicated servers for client, workers, databases, and a read-replica node for MongoDB/PostgreSQL).
- **Automated the entire Meesho data sync** (orders, payments, returns, claims) using a custom proxy routing system that distributed requests across multiple IPs to avoid platform side blocks, also fixed a nasty race condition in subscription credit logic and moved upload history to server side pagination after it was crashing browsers on large datasets.
- **Took ownership of the full release pipeline - local testing, staging validation, then production** across a **5-instance infrastructure** with PgCat connection pooling and clustered Node.js workers, spotted that missing **DB indexes** were hammering CPU under load, added them, and watched server load drop by roughly half.

Neuralquark Computing LLP

Jan 2024 – May 2024

Software Engineer Intern

Full time - Rajkot, India

- Developed **SwipetoShare** and **Article Bookmarking** features in Flutter for Kutchsetu, a live news aggregator app on the Play Store.
- Built a **proxy layer to route requests** through third-party news APIs, enabling free content delivery to users without direct API cost exposure, collaborated with the backend team on Express.js to understand how API responses were parsed and served to the mobile client.

Projects

Benchmarking Medical Conversational AI (Medibot) | Python, LangChain

Guide: Prof. Jayprakash Lalchandani

- Built a **benchmarking tool to compare 6 LLMs** (GPT-4o, Gemini 1.5 Pro, LLaMA 3, DeepSeek) on medical Q&A tasks used LangChain and **RAG** to ground responses in a structured dataset, applied **Chain-of-Thought** prompting to improve diagnostic reasoning, and analyzed each model's accuracy and hallucination tendencies.

GovSetu | Django, JavaScript, CSS & HTML

- Developed a multilingual scheme aggregator for rural areas, including an integrated chatbot, video lessons, and a logic-based eligibility checker to simplify complex requirements.

Technical Skills

Languages: C++, Python, Java, JavaScript, SQL

Backend & Frontend: Node.js, Express.js, React.js, Flutter, LangChain

Databases: MongoDB, PostgreSQL, Redis, PgCat

Cloud/DevOps: Docker, GCP, Git

Position of Responsibility

Google Developer Student Club (GDSC) & Event Organizer

Aug 2022 – Jul 2023

Cloud Lead (Core Team Member) & Event Coordinator

Rajkot, Gujarat

- As Cloud Lead at GDSC, conducted hands-on GCP workshops for students and **co-organized a university-level Competitive Programming contest with IEEE**, handling problem sets and logistics.

Google Cloud Facilitator Programs

Mar 2022 – Jun 2023

Program Facilitator

Remote

- Mentored a combined cohort of **950+ students** (across two tenures) to achieve **#GoogleCloudReady** status.

Achievements

- **Intellectual Property** Online Application for Customers to Incentivize E-Waste Disposal, **Ap-No. 202421033126**. 
- **Competitive Programming:** Solved **800+** problems, Rated **1471 (Peak)** on LeetCode and **1431 (2-star)** on CodeChef. 
- **Hackathon Recognition:** **5th Runner-up** at IECSE (IIIT Surat) for E-waste Management project and **State Finalist** at Azadi Ka Amrit Mahotsav Hackathon (GovSetu). 
- **Extracurricular :** Handling a fan page account with more than **113,000+** followers on Instagram
