Education

Dhirubhai Ambani University formerly known as DA-IICT, Gandhinagar

2024 - 2026

Master of Technology (MTech) in Software Systems - CGPA: 8.39

Gujarat Technological University

2020 - 2024

Bachelor of Engineering (BE) in Computer Engineering - CGPA: 8.35

Experience

HM SQUARE SOLUTIONS LLP (Speed Ecom Solution)

Jan 2026 – June 2026

Software Development Intern (PPO Offered) | React.js, Node.js, Express.js, MongoDB, PostgreSQL, Redis, Docker, GCP Full time - Surat, India

- Built and deployed a **multi database data reconciliation platform** with RESTful APIs, serving **1K+ active e-commerce sellers**, enabling automated SKU-wise P&L tracking and financial settlement management across **5 production server instances**.
- Engineered a **load balanced worker system** with residential IP rotation to automate Meesho data sync with a 7 day scheduled auto fetch cycle, achieving a **90%+ request success rate** against Akamai bot protection. Designed and implemented a **5 tier RBAC system** using JWT based authentication, token bucket rate limiting, and CORS hardening to enforce strict data isolation across Super Admin, SBM, RM, Admin, and User roles.
- Reduced server CPU load by $\approx 50\%$** through systematic database index optimization, and improved UI responsiveness by implementing **server side pagination and lazy loading** for high volume data views.

Neuralquark Computing LLP

Jan 2024 – June 2024

Software Engineer Intern | Flutter, Node.js, Express.js, Prisma, MySQL

Full time - Rajkot, India

- Built a **content aggregation proxy layer** using Express.js and Prisma to route requests through premium news APIs with paywall authentication, achieving a 100% request pass through rate and enabling free content delivery to end users via a **scheduled ingestion pipeline** refreshing every 30 minutes.
- Developed **SwipeToShare** and **Article Bookmarking** features in Flutter for a live news aggregator app published on the Google Play Store, improving user engagement and content discoverability.

Projects

Benchmarking Medical Conversational AI (Medibot) | Python, LangChain

Guide: Prof. Jayprakash Lalchandani

- A **benchmarking tool to compare 6 LLMs** (GPT-4o, Gemini 1.5 Pro, LLaMA 3, DeepSeek) on medical Q&A tasks used LangChain and **RAG** to ground responses in a structured dataset, applied **Chain of Thought** prompting to improve diagnostic reasoning, and analyzed each model's accuracy and hallucination tendencies.

GlobeTrotter | Node.js, Express.js, PostgreSQL, Prisma, Redis, Docker, Gemini

- Built a **multi city trip planner** that lays out a day by day itinerary across several destinations and keeps the budget updated as the plan changes. **Gemini drafts and reorders the schedule, but only from the app's own activity catalog**, so every suggestion points at a real record, and a saved, shared, or cloned trip stays consistent. Access is scoped per user with ownership checks on every edit, role gated admin analytics, and rate limited auth.

Technical Skills

Languages, Cloud & DevOps: C++, Python, JavaScript, SQL, Docker, Google Cloud Platform (GCP)

Frontend, Backend & Databases: React.js, Node.js, Express.js, MongoDB, PostgreSQL, Redis

Position of Responsibility

Google Developer Student Club (GDSC) & Event Organizer

Aug 2022 – Jul 2023

Cloud Lead (Core Team Member) & Event Coordinator

Rajkot, Gujarat

- As Cloud Lead at GDSC, conducted hands on GCP workshops for students and **coorganized a university level Competitive Programming contest with IEEE**, handling problem sets and logistics.

Google Cloud Facilitator Program

Mar 2022 – Jun 2023

Program Facilitator

Remote

- Selected as 1 of ~ 50 facilitators across India** by Google to lead the Cloud Facilitator Program. Mentored **950+ students** across two tenures through GCP labs and cloud architecture milestones.

Achievements

- Intellectual Property** Online Application for Customers to Incentivize E-Waste Disposal, **Ap-No. 202421033126**.
- Data Structures & Algorithms:** Solved **430+** problems on [LeetCode](#) (**1471** rating) and **140+** on [GeeksforGeeks](#).
- Competitive Programming:** **110+** problems solved on [CodeChef](#), rated **2-star** (**1431** peak).
- Hackathon Recognition:** **5th Runner-up** at IECSE (IIIT Surat) for E-waste Management project and **State Finalist** at Azadi Ka Amrit Mahotsav Hackathon for GovSetu project.
